## Advantages of contracting us

- Efficient maintenance to ensure a short and long-term productivity.
- Expert team with more than 15 years of experience.
- Know-how in a wide variety of WTGs.
- Ad-hoc services: Tailor-made service to suit each client's needs.
- WIN-WIN commitment (guaranteed energy availability, etc.).
- Quality, Corporate Social Responsibility and Environmental certifications.
- Experts in Quality, Health and Safety and Environment.

## Activity areas

### WIND

- Maintenance: preventive, corrective, predictive and major corrective.
- Predictive maintenance: vibrations and oil analysis, thermography studies and videoscopes.
- Blades and end of warranty inspections.
- Local operation and supply of spare parts.
- Components repair.
- Ancillary services (cranes, etc.).
- Lifts, life-lines and meteorological towers revision.
- Wind turbine´s disassembly.
- Services quality audit.

### SOLAR

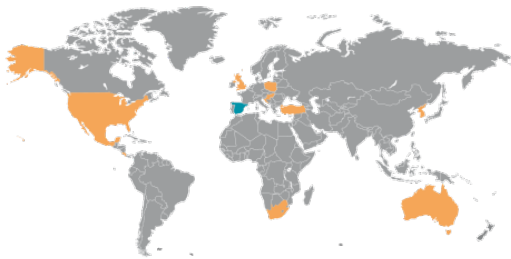

- Maintenance: preventive, corrective, predictive and major corrective.
- Retrofits.
- End of warranty inspections.
- Local operation.
- Components repair.
- Installation disassembly.
- Services quality audit.

### HIGH VOLTAGE

- Maintenance: preventive, corrective, predictive and major corrective of power transformers.
- End of warranty inspections.
- Ancillary services.
- Services quality audit.

## International projects

**TECHNICAL SUPPORTS:** Croatia, Poland, United Kingdom, Mexico, Costa Rica, South Korea, Turkey, France, USA and South Africa

**PREDICTIVE ANALYSIS:** Korea and USA.

**END OF WARRANTY INSPECTIONS:** Hungary.

**BLADES ASSESSORY:** Australia.
